## SEAT AND BACKREST

Flannel

Upholstery Fabric

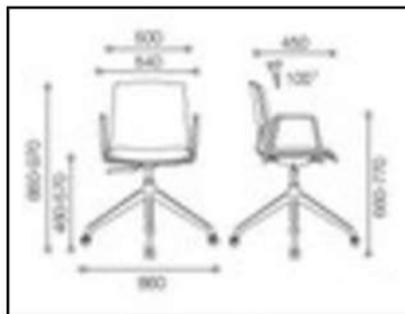

## HARDWARE

Polypropylene (PP)

## DIMENSION

ANSI BIFMA quality standard in the United States  
 PP reinforced plastic integrated molding for internal plastic back frame  
 Backrest connected to seat, high-density rebound sponge, velvet fabric upholstery  
 Base molded integrally with independently developed PA molds, without locking function  
 Gas lift according to SGS standard, 500mm stroke  
 Chair base according to SGS standard, diameter 660mm white nylon four-star base  
 Chair wheels according to SGS standard, 50mm white nylon PU wheels

## SEAT AND BACKREST

Flannel

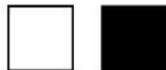

Upholstery Fabric

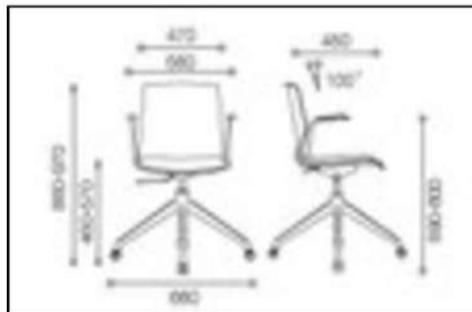

## HARDWARE

Polypropylene (PP)

## DIMENSION

ANSI BIFMA quality verification standard in the United States  
 PP reinforced plastic integrated molding for internal plastic back frame  
 Backrest connected to seat, high-density rebound sponge, velvet fabric upholstery  
 Armless, with writing board, bracket rotatable 360 degrees  
 Seat cushion made of high-density foam, stretch elastic fabric  
 Base molded integrally with independently developed PA molds, without locking function  
 Gas lift according to SGS standard, 500mm stroke  
 Chair base according to SGS standard, diameter 660mm white nylon four-star base  
 Chair wheels according to SGS standard, 50mm white nylon PU wheels

Upholstery Fabric

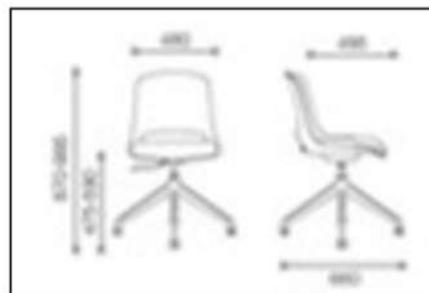

## HARDWARE

Polypropylene (PP)

## DIMENSION

HARDWARE  
White / Black

ANSI BIFMA quality standard in the United States  
PP reinforced plastic integrated molding back frame connected to seat  
With seat cushion, high-density rebound sponge, fabric or leather seat optional  
Base molded integrally with independently developed PA molds, without locking function  
Gas lift according to SGS standard, 500mm stroke  
Chair base according to SGS standard, diameter 660mm white nylon four-star base  
Chair wheels according to SGS standard, 50mm white nylon PU wheels

## HARDWARE

Polypropylene (PP)

## SEAT CUSHION

Upholstery Fabric

## DIMENSION

ANSI BIFMA quality verification standard in the United States  
 PP reinforced plastic integrated molding back frame connected to seat  
 With armrests, diameter 16mm, surface with PP plastic, spray-coated brackets  
 Plastic available in multiple colors  
 Seat cushion made of high-density foam, stretch elastic fabric  
 Base molded integrally with independently developed PA molds, without locking function  
 Gas lift according to SGS standard, 500mm stroke  
 Chair base according to SGS standard, diameter 660mm white nylon four-star base  
 Chair wheels according to SGS standard, 50mm white nylon PU wheels
